

MDW Medical Scales

The MDW is well suited for many medical and sports applications like the school locker rooms, gyms, medical offices and hospitals. They feature a sturdy design and construction with a metal base and non slip weighing platform. The MDW 250L is a digital scale with built in battery and color coded keypad that is simple to use. The MDW 160M is a mechanical scale that features wheels for easy mobility and a notched counter weight that shows the weight cleanly. Both offer an adjustable height rod to quickly take weight and height readings in one step.

Adam Equipment's medical scales offer an affordable rugged solution to the needs of medical professionals and health practitioners throughout the world. And with over 35 years of experience in the weighing industry you can trust Adam for quality products that are always the perfect balance of speed, performance and value.
